Monday, March 24. 1707.

From the Harlam Courant, dated March 29.

Genoua, March 6.

THIS Republick is about to raiſe 10000 *Men*. We have Advice from Valencia, that King Charles is in motion with his Army, to ſupport 50 Diſtricts of Caſtile that have declar'd for him, and to cover ſeveral Places that have revolted to him againſt the Forces of King Philip, who has commanded that the Church Plate be brought into his Mint. On the Arrival of Part of the Confederate Fleet at the Iſland of Minorca, it has return'd to the Obedience of King Charles.

From the Paris Gazette, dated Mar. 26.

Madrid, Mar. 8. They write from Grenada, that the Duke del Infantado is impriſon'd in the Caſtle there. The Regiſter of Campeche, the Patache of Don Diego Sanchez, and another Ship, are arriv'd at San Lucar, having been ſeparated in the Latitude of 38 Degrees from the Capitana and ſome others. They have brought a Million of Crowns for the King.

Rome, Feb. 26. The Pope has written a Letter to the Archbiſhop of Gneſna, to exhort him to procure Peace to Poland, by ſubmitting to King Staniſlaus, and not to proceed to a new Election.

From the Amſterdam Courant, dated March 29.

Vienna, March 16. The Expreſs that lately arriv'd here from Spain, has not brought King Charles's Conſent to the Marriage propos'd between him and the Princeſs of Wolfembuttel: 'Tis ſaid however, that that Princeſs will come and reſide here as a near Relation of the Empreſs, and that the Marriage will ſtill be concluded. 'Tis reported here as a thing certain, that Prince Eugene, aſſoon as the Caſtle of Milan is taken, will be ſent with ſeveral thouſand Men to Naples, to reduce that Kingdom likewiſe to the Obedience of its lawful Soveraign. 'Tis alſo talk'd, that the Pope has exhorted the Primate of Poland to endeavour rather to put an End to than prolong the Troubles of that Kingdom; and that thereupon the Primate has ſent to know of King Auguſtus whether he is minded to maintain his Right to the Crown of Poland or not; and if not, he will go over to King Staniſlaus's Party, as the only Means to reeſtabliſh the Quiet of the Republick. The Duke of Parma is by Agreement to pay 90000 Piſtoles, beſides furniſhing Winter Quarters; the Pope for the Provinces of Ferrara and Bologna 180000 Roman Dollars, beſides Forrage; the Republick of Genoa 280000 Piſtoles; and the great Duke of Tuſcany 300000 Spaniſh Doubloons.

From the Harlem Courant, dated Mar. 29.

Milan, Mar. 15. Prince Eugene having been ſought to for Paſſes for ſome French Officers, his Highneſs refus'd them, but ſaid, that if the French would ask Paſſes for the Garriſons in Mantua, the Milaneze, &c. they ſhou'd have them. Whereupon the Prince of Vaudemont ſent two General Officers to Prince Eugene to inquire what might be his Meaning: His Highneſs gave it them in Writing, which thoſe 2 Officers having carried to France and brought back with that King's Reſolutions thereon in Writing; M. de St. Pater and de Chalon preſented the ſame the 12th Inſtant to Prince Eugene ſign'd. Upon this Hoſtilities ceas'd immediately on both ſides: That Evening ſeveral German Officers went into the Caſtle,, and ſome French and Spaniſh Officers came out to refreſh themſelves, and appear'd at a great Entertainment given that Night by Count Colmſenero. Yeſterday our Caſtle was evacuated, and the Germans took Poſſeſſion of it. 'Tis agreed likewiſe, that Mantua, Cremona, Valenza, Guaſtalla, Sabionetta, Mirandola, Oſtiglia, and Final, ſhall be put into the Hands of the Germans till a general Peace be concluded; that the Italian Troops ſhall be at Liberty to put themſelves into the Service of King Charles III, or continue in that of Philip V; that the French and thoſe who chooſe to go with them, ſhall be conducted to Suza; and that in their march thither, they ſhall be furniſh'd with Quarters and Proviſions at the Charge of the State of *Milan*: That this Agreement ſhall extend no further than Lombardy, tho' ſome pretend Savoy is included; and therefore Suza, as being in *Piemont*, is excluded out of it: That the French ſhall leave in the Places they evacuate all the Artillery and Stores of War, Ammunition, and Proviſions: That all the German Deſerters they have among them ſhall be deliver'd up: That in the enſuing Campaign, France ſhall be at full Liberty to endeavour to break into Piemont, and the Allies to invade Dauphine. The 9th of this Month, the City and County of Alexandria, took an Oath of Fidelity to the Duke of Savoy, and his Royal Highneſs has now added to his Titles thoſe of Count of Alexandria, and Lord of Lumelino and of the Valley of Seſia: He will take Poſſeſſion of Valenza and Final aſſoon as the Enemy have quitted them.

The Leiden Gazette of March 29, ſays in the Article of *Milan*, that 'twas reported there the Republick of Venice had mediated the Treaty or Capitulation above-mention'd.

From the Amſterdam Gazette, dated Mar. 29.

Milan, Mar. 15. Our Caſtle is not to be evacuated till the 20th of this Month. The *Marquis de la Florida* the Governour makes ſome Difficulties; but M. de St. Pater has undertaken that the Orders of the King his Maſter ſhall be executed. The Inventory of what is in the Place will be finiſh'd the 19th. And 'tis agreed, that the Garriſon ſhall march out by the Gate towards the Country, and that the Imperialiſts ſhall enter by that towards the City. The 13th an Opera was acted for the Entertainment of *M.* de St. Pater. The 14th the Marquis de la Florida and the other chief Officers of the Caſtle came out to the Barriers, where Compliments paſs'd between them and Count Koningſeck Governour of the City, and they embrac'd each other. Our Citizens are full of Joy, to ſee themſelves deliver'd from ſo many Fears and Troubles. 'Tis regulated, that all the Troops of the 2 Crowns, which are to march out of Italy, ſhall take 3 different Routes to return into France by the Valley of Suza: The Garriſons of Mantua and Mirandola will march together by one Route; thoſe of Cremona and Sabionetta will go by another; and thoſe of the Caſtle of Milan, Valenza, and Final by another.

From the Harlem Courant, dated Mar. 29.

Berlin, Mar. 12. The Muſcovite General Rheene has ſent to deſire our King to grant him Paſſage with a Body of Forces to the Swediſh Pomerania: But 'tis not to be imagin'd it will be granted. That General continues his March towards the Oder.

From the Amſterdam Courant, dated Mar. 29.

Dreſden, Mar. 22. The Troops the King of Sweden has in this Electorate, conſiſt of 12 Regiments of Foot, 6 of Horſe, and 6 of Dragoons, which being recruited will make between 26 and 30000 *Men*; they have a Train of 30 Pieces of Cannon, of which the heavieſt is a twelve Pounder. About

Poſnania

Posnania a Body is form'd of those Swedes that were in the Battle of Kalish; which with other Troops that are on the march thither, will make a Body of 5000 Men. 'Tis reckon'd there are about 10000 Men under General Leuwenhaupt in Lithuania: And this is the whole military Force of the King of Sweden. The Swedish Officers say these Forces will remain divided into three Bodies; that is to say, one under General Leuwenhaupt; another to march with King Stanislaus to Poland, in Case Peace be not made with the Czar; and the third to stay in this Electorate till the Articles of the Treaty with King Augustus are all made good. The Swedes appear to have a design to disarm the Peasants of this Country. This City is furnishing it self with Provisions for 6 Months, to provide against a Scarcity, the open Country beginning to suffer Want.

Brandreth, at the Archimedes and Globe in Ludgate-street, the Corner next St. Paul's, who serv'd their Apprenticeships to Mr. Yarwell and Mr. Stirope, and during that Time did bring to Perfection for them, by our own Industry, the New Method of Grinding on Brass Tools, which hath been approv'd of by the Royal Society; and we were wholly imploy'd in making the Best sort of Spectacles, Reading-Glasses, Telescopes, Microscopes, and Perspective-Glasses; by which they gain'd a great Reputation, they have since before Witnesses declar'd us to be good Workmen, and as such we have been imploy'd by them and Mr. Marshall several Years in making the best of Work for their Sale; and since we have kept Shop for our selves, we have contriv'd, and now brought to Perfection a new Microscope, that is both Double and Single, adapted for all Objects, and 'tis computed that it magnifies them more than Two Millions of Times, and far exceeds that mention'd in our former Advertisement. We are now making a Concave Mettal, that unites the Sun Beams so vigorously, that in a Minutes Time it will melt Steel, and vitrefie the hardest Substance. Also we do protest we pretend to no Impossibilities, and that we scorn to impose on any Gentleman or others, but what we Make and Sell shall be really Good, and answer the End we propose in our Advertisements, and that we have True Spectacles and Reading-Glasses, which preserve the Sight, and Telescopes of all Lengths, so curiously Adapted and Contriv'd, that a small one for the Pocket takes in a larger Angle, shews the Object larger and nigher than the large Common ones of 4 Foot long, by the Assistance of which the Hour of the Day may be discover'd by such a Clock as Bow or St. James's above 2 Miles; or anything else at 20 or 30 Miles distance proportionable; we have and do make others, that are larger, will do the same at 4 or 6 Miles, modestly speaking; and we are now writing a small Treatise, with the Advice and Assistance of the Learned, that gives the Reasons why they do so; and other Curiosities, which will speedily be finished, and given (Gratis) to our Customers.
